Work Experience

Brattleboro, VT Feb 2022–Dec 2025	Green River Data Analysis (Remote) ETL Data Engineer • Developed and maintained ETL pipelines and backend infrastructure in Ruby and python • Planned and executed yearly, monthly, and weekly updates to over 40 datasets in a state public health dashboard • Identified and implemented optimizations that reduced processing time by 60% • Facilitated 8-person team meetings on system architecture, product strategy, and tech roadmap
New York, NY Apr 2020–Jan 2022	Vera Institute of Justice Center on Immigration and Justice Research Associate • Modernized reporting workflows and data pipelines for 4 immigration legal access programs' quarterly and annual reports across over 20 service providers • Scraped ICE websites every hour reporting COVID-19 outbreaks in over 140 detention facilities • Cleaned, transformed, and visualized the data in a public archive and dashboard
Jun 2019–Apr 2020	Data Analyst
New York, NY Oct 2017–Apr 2018	Memorial Sloan Kettering Cancer Center Psychiatry & Behavioral Sciences Assistant Research Biostatistician • Consulted with physician investigators in study design and analysis • Regularly produced summary reports of statistical analysis progress • Authored statistical write-ups and created plots for study manuscripts
Boston, MA May 2016–Sep 2017	ChildObesity180 at Tufts University Research Data Analyst • Designed survey data collection instruments, entry systems, and data cleaning scripts in SAS and R
Aug 2015–May 2016	Graduate Research Assistant
Summer 2015	Research and Evaluation Intern

Education

Boston, MA 2016	Boston University School of Public Health MPH, Biostatistics
Providence, RI 2014	Brown University BA, Community Health

Skills and Interests

Skills

Data modeling, ELT, and pipeline design; Statistical data analysis; Data visualization; Backend web development; GIS; Web scraping and data integration

Technologies and Frameworks

R; python; Ruby on Rails; SQL; shell scripting; Apache Airflow; dbt; Docker; Kubernetes; AWS Cloud Tools (S3, EKS, EC2, RDS, DynamoDB) Agile software development

Data Analysis and Visualization

Statistical data analysis; Expertise in ggplot2; Proficient in D3 and custom web interfaces in VueJS and Svelte, LaTeX

Interests

I'm into weight lifting, biking, reading, video games, and generative art
